

Index

- arid and semi-arid areas 1, 4, 7
- atmospheric pressure 42–3, 47, 87, 90, 92, 102, 105–6, 108, 144, 170, 188
- biofouling 67
- caissons 53–4, 65, 71, 78, 84, 97, 141–2, 143
- digging-in 16, 51, 59, 64, 76
- drainage 42, 79–80, 106
- drawdown 23
- driving in 12
- evaporation 188
- floods 60
- food security 124, 150
- gabions 38, 63–5
- gardens 16, 130–1, 135–6, 145, 155
- gender 121, 124
- graded filter 43–4, 64
- groundwater 2, 6, 12, 58, 61, 75, 102, 122–3, 145, 176, 185–9
- hafirs 38, 62–3
- HIV and AIDS 155, 158
- infiltration galleries 20, 24
- in flow 1
- jetting 47, 81–4, 176, 190
- laminar flow 53, 75
- mineral salts 2, 42, 57, 75, 122
- paleo river channels 14, 56
- perennial rivers 25
- probes / probing 23, 25–9, 37
- pumps
 - diaphragm 88, 98, 113, 143
 - direct lift 47, 51, 53, 66, 84, 86, 90, 92
- sand dam 56–60, 64–5
- sand rivers 2–3, 6–7, 14–6, 18–19, 64, 68–9, 139, 185, 190
- sand wells 4, 25, 38, 42, 44, 51, 65, 71, 78, 84, 88, 90, 94, 97, 103–4, 142–3, 183
- seasonal rivers 51, 60, 183
- sediment grading 31, 73
- sediment transport 14, 24, 59–60, 68, 75, 144

- seepage 16, 190
- tube wells 64, 99
- turbulent flow 40
- velocity 10, 12, 19–20, 24, 57, 59, 74–5, 94, 97, 116, 143, 163, 165–7, 189
- wadis 60
- water losses 61
- water-point committees 126, 130, 132
- water quality 7, 187
- water storage 11, 14–5, 19–20, 22, 24, 29–31, 35, 56–8, 62–5, 147–8, 152, 155, 162, 172
- water storage capacity 20, 22, 31, 57, 62–5
- water-table 12, 16, 30, 187, 191
- well-point design 164
- well-points 5, 20, 43–5, 47, 67, 71–2, 78–9, 84, 80, 92, 94, 97, 104–6, 115, 140–3, 148, 166–7, 176–7, 182, 185–6
- well-point slots 67
- well-rings 53, 69, 71
- well-screen 73, 75, 85, 176
- wells, offset 23, 25–6, 28–9, 37
- wells, collector 38, 43–4, 48–9, 51, 65, 67–8, 71, 78, 80–1, 84, 87
